PRIMARY EXAMINER

1. The following is an examiner's statement of reasons for allowance:

The examiner deems the application claims are allowable over Shighiro, the closest prior art of record on the basis of applicant attorney arguments directed to the differences in structure claimed for applicants film versus the structure of the film of Shighiro even though their compositions may overlap. The examiner also observes that evidence of the difference in structure also is apparent in the saturation flux density of applicant's film which are greater than 2 Teslas, some exceeding 2.37 Teslas while the saturation flux density of the films of Shighiro et al attain only 2.0 Teslas at most.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
